SUMMARY

Bachelor in Systems Engineering from the University of Lima, passionate about transforming data into insights that drive strategic decision-making. With a solid background in programming, data analysis, and database management, I stand out for my ability to work under pressure and in teams, with a proactive attitude focused on business objectives. I aspire to develop as a Data Analyst, contributing to the growth and optimization of processes through the intelligent use of data.

EDUCATION

- **Bachelor of Science in Systems Engineering – Universidad de Lima (UL)** (April 2019 – December 2024)
| Ranking: Upper Third (Top 30%)

EXPERIENCE

Koala Home | Pre-professional Data Analyst Intern

Mar.2025 – Jun. 2025

- Utilized Shopify's API to extract and manipulate massive order data via Bulk Query, standardizing data into JSON format and processing it into relational dataframes using Python and SQL for efficient analysis.
- Automated ETL processes using Google Cloud Functions.
- Implemented data analysis in Google Sheets to identify purchasing patterns and optimize conversion rates.
- Created dynamic dashboards for tracking Facebook Ads and Google Ads campaigns, improving marketing team efficiency.
- Developed dashboards in Looker to visualize geographic and hourly sales, providing key insights to optimize marketing strategies and inventory management.

CERTIFICATIONS

- Google Data Analytics Certified
- Machine Learning Specialization

SKILL & TOOLS

- Manipulation Data & Profiling: Python, SQL, R, Tableau, PowerBI, Looker, DBT
- Excel – Advanced
- Google Cloud: BigQuery, Firestore
- Git control system
- Dashboards: Looker, Tableau, PowerBI

LANGUAGES

- English (C1)
- Spanish (Native)
